

Shamsur Raza Chowdhury

Full Stack Software Developer

Tampere, Finland | shamsur314@gmail.com

About me

I am a 21-year-old international student finishing my bachelor at Tampere University in Finland. I am familiar with modern web frontend and backend technologies as well as cross-platform development. I'm interested in learning cloud technologies and building cloud-native application. I'd invite you to browse through my [GitHub](#) page to see my work, including the ones listed below. Feel free to connect on LinkedIn for any queries. All links are attached.

Projects

- [REACT NATIVE APP](#)

A lost and found Android app for pets made with Expo React Native.

- [NEXTJS & AWS LAMBDA](#)

JWT authentication implemented with serverless AWS lambda functions, DynamoDB, and jsonwebtoken.

- [REACT REAL TIME CHAT APP](#)

Real time chat app application made with Socket.io & MongoDB that connects with a stranger in 25m radius.

- [REACT & GCP FIREBASE CRUD APP](#)

React note CRUD app made with Google Cloud's BaaS Firebase services.
